## Marsden DT-I-100SS:

A mild steel drive thru platform and pallet scale with IP65 stainless steel indicator

The Marsden DT-I-100SS is a drive thru platform scale with two ramps and a shallow incline allowing pallet trucks to pass over it with ease.

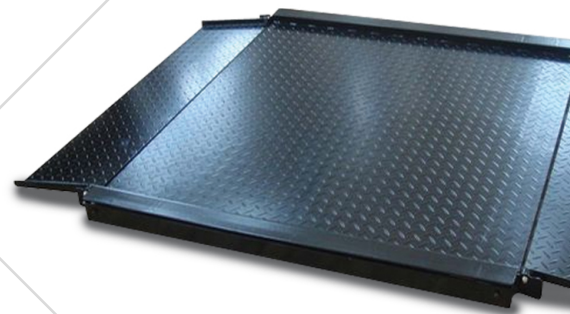

### Why a drive thru?

The DT-I-100SS is a low-cost and easy to use drive thru weighing scale. Calibrated and ready to use straight from the box without need to be fitted, this is a quick weighing method.

Designed to be ultra-low profile at only 45mm and with shallow incline on the ramps this platform provides a quick and easy way to measure the weight of pallets.

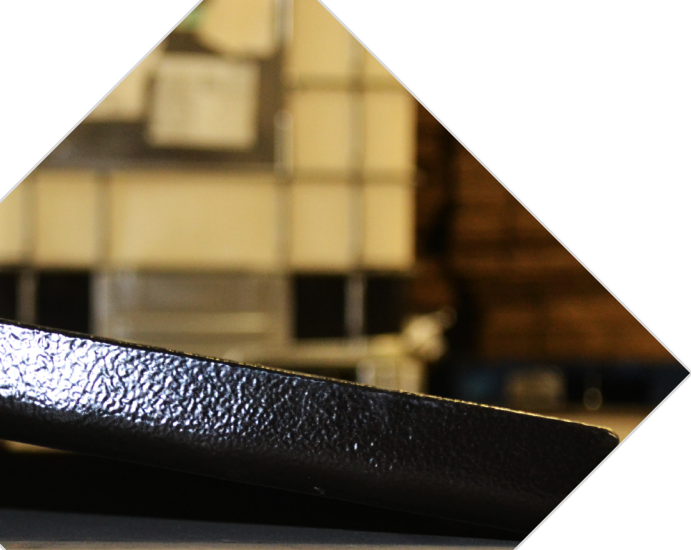

The load cells and cables of the platform are safely mounted within the structure of the platform – protecting them from damage by fork trucks when the scale is being moved. It is supplied with 4m of armoured load cell cable to give strength and durability.

Heavy duty weighing

Best-selling I-100SS indicator

Shallow incline on the ramps

Low profile for pallet trucks

## Marsden's bestselling indicator

This scale comes with Marsden's bestselling IP65 stainless steel I-100SS indicator.

This indicator has counting, Zero, Tare and pre-set Tare functions.

The I-100SS has an IP65 rating for wipe down and dusty environments.

It also benefits from a rechargeable battery which provides over 40 hours' continuous use when the battery is fully charged. An AC adaptor is provided for charging the battery and running the scale from mains power.

The I-100SS has a large LCD backlit display making it easy to see even in poor lighting conditions.

A wall bracket is provided to allow easy mounting to any surface!

## Built to last

Like other scales in the Marsden platform range the DT-I-100SS is built to last. This highly durable scale is backed by a one-year warranty.

To ensure reliability and accuracy with every weigh a service contract can be purchased.

## Product specification
