## Marsden PT-400: An IP67 rated pallet truck scale perfect for harsh industrial conditions

The Marsden PT-400 is a stainless steel pallet with an in-built weighing scale, designed to make weighing euro pallets as easy as possible - even in damp and humid conditions.

### A rugged scale for demanding environments

The PT-400 is an **IP67 rated scale**. This means it can withstand use in damp or humid environments.

Additionally, stainless steel construction means it can be **washed down** to keep it hygienic.

Plus, like all pallet truck scales, the PT-400 **makes weighing more convenient**, because goods can be moved and weighed at the same time.

### Easy access functions

The PT-400 uses Marsden's **IP67 indicator**, the I-200. This indicator is the perfect rugged indicator for quick and easy checkweighing.

There are just four buttons allowing the user to access features like **Tare and Zero**, and the weight reading is clearly displayed in **bright red LED digits**. This makes the PT-400 suitable for dimly lit warehouses and factories.

## Simple operation; universal compatibility

The fork width of the PT-400 is perfect for **euro pallets** - but in fact this pallet truck is **suitable for almost any pallet type**.

The rugged stainless steel handle has a plastic shroud for **grip and stability**, so lifting, moving and weighing a pallet is quick and easy. Rechargeable battery (with **upto 70 hours' use from full charge**) powers the scale.

## Key features

- IP67 stainless steel protection
- IP68 loadcells
- Rechargeable battery
- Tare/Zero
- Preset Tare
- Bright red LED display
- Robust stainless steel casing
- Perfect for most pallet types

## Overload protection

The PT-400 may have a generous **2000kg capacity**, but that doesn't mean that occasionally your pallets will exceed that weight.

To help protect the scale, the PT-400 has **built-in overload protection**, helping prevent damage should you go slightly over the 2000kg capacity.

## Specification

- Capacity: 2000kg
- Graduations: 500g
- Power: Rechargeable battery or mains
- Fork dimensions (over forks): 1150mm (l) x 540mm (w)
- Individual fork width: 160mm
- IP rating: 67
