Marsden PT-500: Palletised goods weighing in an instant

The rugged, high capacity **Marsden PT-500 Pallet Truck Scale** means palletised goods can be weighed on the move. **Four load cells** in its **mild steel forks** provide weight readings to the nearest **500g** - and accumulation, parts counting and hold functions all make weighing simple and hassle-free.

Easy weighing on the move

The PT-500 is built for demanding day-to-day weighing jobs. Its sturdy handle and **extra thick mild steel forks** mean weighing palletised goods is quick and easy. The **32mm high red LED electronic display** shows the weight reading clearly, even from a distance or in poorly-lit environments.

Low profile forks, with just 78mm ground clearance, provides greater flexibility in lifting and weighing.

Accurate weighing up to 2000kg

Right up to two tonnes, the PT-500 will give you an accurate weight reading of your goods, thanks to **four heavy duty loads cells** in its **mild steel low profile forks**. Don't want the reading in **metric**? Just switch the display to **lb readings**. Weighing several pallets for one shipment? The PT-500 will **add up the individual weights** when you select the accumulation function.

Long-life internal battery for extra flexibility

The **internal rechargeable battery** of the PT-500 will last upto 40 hours. However, a **programmable auto power-off** and **indicator screensaver** will save battery life, meaning you can use the PT-500 for longer between charges.

Key features

- Tare
- Hold
- Accumulation (of pallet weight)
- Counting mode
- Unit switchable
- Four heavy duty load cells
- 32mm high bright red LED display
- Programmable auto power-off/screensaver
- Low profile forks

Easy access functions

The PT-500 is packed with easy to use features making weighing even easier. **Tare** will allow you to remove the weight of the pallet from the reading. **Hold** will stabilise the weight reading even if your load is moving around. A simple **counting function** allows you to add up items on a pallet quickly and easily.

Specification

- Capacities/graduations: 2000kg x 500g
- Fork length: 1150mm
- Ground clearance: 78mm
- Power: 6v 4.5A/Hr rechargeable battery
- Adaptor: 7v 1000ma mains adaptor
- Weight of scale: 125kg
