

Stainless steel bench scales KERN FOB-S · FOB-NS

STANDARD FOB-S

Compact stainless steel balances with high level of protection against dust and water splashes

	KERN FOB-S	KERN FOB-NS
Features	 Stainless steel design of the housing and weighing plate. Its smooth surfaces make it simple to clean High mobility: thanks to battery operation, compact, lightweight construction, it is suitable for the use in several locations (kitchen, sales office, cafeteria, Food industry-Laboratory etc.) Secure and non-slip positioning with rubber feet Protective working cover included with delivery 	
	Your support in a HACCP-compliant quality system	 Particularly flat design Protection against dust and water splashes IP65 (only when using battery)
Technical data	 Large LCD display, digit height 20 mm Dimensions weighing surface, stainless steel, W×D 125×155 mm Overall dimensions W×D×H 175×155×40 mm Ready for use: Battery included, 9 V Block, operating time up to 20 h Net weight approx. 0,7 kg Permissible ambient temperature 10 °C/40 °C 	 Large LCD display, digit height 20 mm Dimensions weighing surface, stainless steel, W×D 120×150 mm Overall dimensions W×D×H 170×150×40 mm Ready for use: Batteries included, 9 V block, operating time up to 24 hours Net weight approx. 0,8 kg Permissible ambient temperature 10 °C/35 °C
Accessories	 Protective working cover, scope of delivery: 5 items, KERN FOB-A11S05 Mains adapter external, KERN FOB-A09 	 Protective working cover, scope of delivery: 5 items, KERN FOB-A12S05 Mains adapter external, KERN FOB-A09

KERN BALANCES & TEST SERVICES CATALOGUE 2019

KCP

PROTOCOL

Pictograms

Internal adjusting:

Quick setting up of the balance's accuracy with CAL INT internal adjusting weight (motordriven)

Adjusting program CAL:

For quick setting up of the balance's accuracy. External adjusting weight required

CAL EXT

Easy Touch:

Suitable for the connection, data transmission and control through PC, tablet or smartphone Memory:

Balance memory capacity, e.g. for article data, MEMORY

weighing data, tare weights, PLU etc. Alibi memory:

Secure, electronic archiving of weighing results, complying with the 2014/31/EU standard.

• 6534 •

ALIBI

Data interface RS-232:

To connect the balance to a printer, PC or network

RS-485 data interface:

To connect the balance to a printer, PC or other RS 485 peripherals. Suitable for data transfer over large distances. Network in bus topology is possible

USB data interface:

To connect the balance to a printer, PC or other peripherals

Bluetooth* data interface:

To transfer data from the balance to a printer, PC or other peripherals

WLAN data interface:

To transfer data from the balance to a printer. PC or other peripherals

Control outputs (optocoupler, digital I/O): To connect relays, signal lamps, valves, etc.

Analogue interface:

to connect a suitable peripheral device for analogue processing of the measurements

ANALOG

Interface for second balance: For direct connection of a second balance

Network interface: For connecting the scale to an Ethernet network

Wireless data transfer:

between the weighing unit and the evaluation unit using an integrated radio module

KERN – Precision is our business

To ensure the high precision of your balance KERN offers you the the appropriate test weight in the international OIML error limit classes E1-M3 from 1 mg - 2500 kg. In combination with a DAkkS calibration certificate the best pre-requisite for proper balance calibration.

The KERN DAkkS calibration laboratory today is one of the most modern and bestequipped DAkkS calibration laboratories for balances, test weights and force-measurement in Europe

Thanks to the high level of automation, we can carry out DAkkS calibration of balances, test weights and force-measuring devices 24 hours a day, 7 days a week.

Range of services:

- · DAkkS calibration of balances with a maximum load of up to 50 t
- · DAkkS calibration of weights in the range of 1 mg 2500 kg · Volume determination and measuring of magnetic susceptibility (magnetic
- characteristics) for test weights · Database supported management of checking equipment and reminder service
- · Calibration of force-measuring devices
- · DAkkS calibration certificates in the following languages DE, GB, FR, IT, ES, NL, PL
- · Conformity evaluation and reverification of balances and test weights

PCS

GLP/ISO log:

KERN Communication Protocol (KCP):

It is a standardized interface command set for

KERN balances and other instruments, which

parameters and functions of the device. KERN

devices featuring KCP are thus easily integrated

with computers, industrial controllers and other

allows retrieving and controlling all relevant

GLP/ISO log:

With weight, date and time. Only with KERN PRINTER printers

Piece counting:

Reference quantities selectable. Display can be switched from piece to weight

Recipe level A: 4

The weights of the recipe ingredients can be RECIPE added together and the total weight of the recipe can be printed out

Recipe level B:

Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display

Recipe level C: ∠^c

Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display, multiplier function, adjustment of recipe when dosages are exceeded or barcode recognition

The weights of similar items can be added SUM together and the total can be printed out

TOL

Percentage determination:

Determining the deviation in % from the target value (100 %)

Weighing units: S

Weighing with tolerance range: ○ 3)

(Checkweighing) Upper and lower limiting can be programmed individually, e.g. for sorting and dosing. The process is supported by an audible or visual signal, see the relevant model

M-Hold function:

Stainless steel:

The balance is protected against corrosion

Suspended weighing:

Load support with hook on the underside of the balance

Battery operation:

Ready for battery operation. The battery type is BATT specified for each device

INOX

Rechargeable battery pack: Rechargeable set

Universal mains adapter:

with universal input and optional input socket adapters for A) EU, CH; B) EU, CH, GB, USA; C) EU, CH, GB, USA, AUS

Mains adapter:

230V/50Hz in standard version for EU. On 230 V request GB, USA or AUS version available

Power supply:

Integrated in balance. 230V/50Hz standard EU. More standards e.g. GB, USA or AUS on request

Weighing principle: Strain gauges Electrical resistor on an elastic deforming body
